

# Hope At Home Discussion Questions

## *Season 2 Episode 20: Bearing Good Fruit*

Here are some things for the family to discuss:

1. What does Jesus mean when he talks about people bearing fruit?
2. Daffi-Dil says that one way we can bear fruit is by giving things to others. She calls it sharing our blooms. People share their blooms by giving bouquets of them to their friends. Bouquets of flowers are new friends who come to stay as our guests for a while. We should always learn our new friend's names. Why is it important to remember new people's names? How does that make someone feel?
3. Dinah the Dinosaur mentions that Jesus wished once that he could be a mother hen himself to protect people the way chickens protect their chicks. Taking care of her chicks is one way a mother hen can bear fruit. The best way people can bear fruit is by sharing, and the best thing we can share is ourselves. How do we share ourselves?
4. Barkley Brown talks about how dogs bear fruit when they're around their humans: "We love them... and we don't need a reason...we just love them because we love them. That's what dogs do. I wonder why people can't think that way about each-other? They're supposed to be smarter." What does Barkley mean? Why do people have a harder time than dogs in showing their love for others?

*To Read More about it:*

Jesus tells the parable of the Tenants in Matthew 21: 33-45
